

PROFILE

A 25 years old student of Computer Science in Business, experienced PM & PMO is looking for an internship in frontend. I am an energetic, communicative person with 7 years of experience in project, event and customer service management. I am looking for opportunities to use my academic experience in coding in a friendly environment.

I have been learning programming for three years:

- HTML & CSS - a 4-month program at home.pl
- Frontend - a 6-month online course at DEVSTYLE
- HTML, CSS, JS, TypeScript, NODE.JS - CodersCamp
- Python - 8-month stationary seminar in SDA (including modules from algorithms, databases, frontend and backend)
- Algorithms, databases (SQL), UML object-oriented analysis and design - academic knowledge

In my professional work, I took part in application tests, JavaScript and database training. I possess references from employers in London, Wrocław and Berlin.
